Election/Restrictions

Upon further consideration, the previous restriction requirement is withdrawn in light of the following new restriction requirement set forth below.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 25 in part, 27, and 28-29 in part, drawn to a monospecific (Fab), classified in class 424, subclass 135.1.
- II. Claims 25 in part, 26, and 28-29 in part, drawn to a bispecific (Fab), classified in class 424, subclass 136.1.

The inventions are distinct, each from the other because of the following reasons:

These are different products, having distinct structures, functions, and physiological effects, which require different searches and grounds of consideration.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
